The star (\*) preceding the page number indicates an original article in THE ARCHIVES. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abderhalden reaction, present status of. P. Bailey.....	471
Abdominal neurasthenia. A. S. Taylor.....	*638
Abrahamson, I.: Case of lethargic encephalitis.....	709
The chronicity in lethargic encephalitis.....	*428
Presentation of cases of familial dystonia musculorum of Oppenheim... 129	
Tendency of epidemic encephalitis to chronicity.....	461
Achard, C.: Tetanus, clinical forms. Cephalic tetanus. Serum therapy....	568
Acromegalic gigantism. A case of acromegalic gigantism with manic depressive psychosis. Parhon and Stocker .....	213
Acroparalysis. Elements of predisposition and determining causes of secondary disorders in psychoneurotic acroparalysis resulting from the war: "the dyskinetic syndrome." G. Roussy.....	*247
psychoneurotic, resulting from the war: the dyskinetic syndrome. G. Roussy .....	457
Adler, H. M.: The psychoneurotic elements in juvenile delinquency.....	588
Adolescents. A diagnostic clinic for adolescents: Purpose and organization. P. Bailey .....	578
Alcohol injections in the treatment of trigeminal neuralgia. H. Cushing..	697
Alexia. A case of "pure alexia." A. Gordon .....	108
Amputation neuromas: their development and prevention. D. Lewis.....	448
Anaphylaxis. Alimentary anaphylaxis due to pancreatic insufficiency. M. Nathan .....	100
Anemia. Differential diagnostic difficulties in pernicious anemia with associated mental disorder. Report of a case diagnosed for some time as arteriosclerotic insanity. B. L. Jones and T. Raphael.....	*55
Antimeningococcic serum. Recovery from tuberculous meningitis after treatment with intraspinal injections of antimeningococcic serum. A. W. Hollis and T. H. Pardee.....	447
Apert, E.: Mongolianism.....	442
Aphasia and apraxia. Laignel-Lavastine.....	215
and kindred disorders of speech. H. Head.....	693
Apoplexy and hypertonia. E. Herrmann.....	449
Apraxia and aphasia. Laignel-Lavastine.....	215
Archambault, LaS.: Choreo-athetoid and choreopsychotic syndromes as clinical types or sequelae of epidemic encephalitis.....	461, 484
Arm region of the cortex, so-called, physiologic-anatomic investigations of. H. Meier-Mueller.....	437
Army. An analysis of the cases admitted to the neuropsychiatric services of the U. S. Army General Hospital No. 1 (Columbia War Hospital, New York City). S. R. Leahy.....	132
One thousand psychiatric cases from the Canadian army. C. K. Clark and C. B. Farrar.....	228
Arsphenamin. Paraplegia after arsphenamin. T. J. Dimitry.....	221
Arteriosclerotic insanity. Differential diagnostic difficulties in pernicious anemia with associated mental disorder. Report of a case diagnosed for some time as arteriosclerotic insanity. B. L. Jones and T. Raphael .....	*55
Artery, right posterior inferior cerebellar, partial occlusion of. G. W. Hall .....	469

# INDEX TO VOLUME 4

	PAGE
Arthritis. Observations on the basal metabolism. R. Pemberton and E. H. Tompkins.....	555
Roentgen-ray evidences, clinical considerations, treatment, summary, conclusions and clinical abstracts of cases studied. R. Pemberton.....	560
Studies on arthritis in the army based on four hundred cases. I. Preamble and statistical analysis. R. Pemberton and J. W. Robertson	554
Studies on the nitrogen, urea, carbon dioxid combining power, calcium, total fat and cholesterol of the fasting blood, renal function, blood sugar and sugar tolerance. R. Pemberton and G. L. Foster.....	556
Studies in the relation of creatin metabolism to arthritis. R. Pemberton and T. E. Buckman.....	559
Asexualization. Some notes on asexualization; with a report of eighteen cases. M. W. Barr.....	228
Ataxia. Acuteocerebellar ataxia. J. P. C. Griffith.....	568
Ocular ataxia of tabetics. A. Cantonnet.....	99
Athetosis, acquired double. W. G. Spiller.....	452
acquired double (dystonia lenticularis). W. G. Spiller.....	*370
Automatic movements. The condition of a patient in good health, but exhibiting automatic movements of the lower limbs, nineteen years after complete transverse section of the spinal cord by a gunshot wound. W. B. Cadwalader.....	108
Automatism. Complete section of the dorsal spinal cord through spinal contusion with preservation of the left patellar and Achilles' reflexes and the presence of reflexes of medullary automatism. G. Roussy..	599
Ayer, J. B.: Puncture of the cisterna magna.....	465, 529
Babinski toe response. The physiologic significance of the Babinski toe response. I. L. Meyers.....	*309
Bailey, P.: Contribution to the histopathology of "pseudomotor cerebri".....	*401
A diagnostic clinic for adolescents: Purpose and organization.....	578
Histopathologic findings in pseudotumor cerebri.....	471
Mental deficiency, its frequency and characteristics in the United States as determined by the examination of recruits.....	703
Barbé, A.: Functional restoration in spinal concussions.....	224
Barr, M. W.: Some notes on asexualization; with a report of eighteen cases	228
Barrett, A. M.: Psychosis associated with tetany.....	344
Bartelmez, G. W.: The morphology of the synapse in vertebrates.....	122
Bassoe, P.: A case of third ventricle mistaken for lethargic encephalitis..	118
The coincidence of cervical ribs and syringomyelia.....	542, 576
Bernard, L.: Lethargic encephalitis.....	708
Bilateral. On the occurrence of bilateral sympathetic ophthalmoplegia in lethargic encephalitis. W. B. Cadwalader.....	112
Biochemistry. Aims of biochemistry of the nervous system. G. Pighini..	564
Black, D.: Motor nuclei of the cerebral nerves in phylogeny—a study of the phenomena of neurobiotaxis. III. Reptilia.....	707
Blood pressure. The relation of the cerebral hemispheres to arterial blood pressure and body temperature regulation. F. T. Rogers.....	126, *148
Book Reviews:	
Aphasia and associated speech defects. M. Osnato.....	135
Etude sur l'épilepsie traumatique. Pierre Béhague.....	351
The hysteria of Lady Macbeth. I. H. Coriat.....	246
The problem of the nervous child. Elida Evans.....	477
Shell-shock and other neuropsychiatric problems. E. E. Southard, N. Fenton and C. K. Mills.....	245
Studies in neurology. Henry Head.....	
Boric potassium tartrate and boron medication in epilepsy. P. Marie, Crouzon and Bouttier.....	342
Bouttier: Boric potassium tartrate and boron medication in epilepsy.....	342
Bower, J. O.: Tinel's sign, formication or distal tingling on percussion and deep pressure sensation.....	*662
Brachial birth palsy. A pseudoparalysis of shoulder joint origin. T. T. Thomas	219
Bradykinetic analysis of somatic motor disturbances. S. P. Goodheart and F. Tilney .....	452

# INDEX TO VOLUME 4

	PAGE
Brain. Anatomic relations of the optic thalamus and the frontal region of the human brain. T. Fukuda.....	210
conditions in brain during stammering.....	706
gunshot wounds of brain, finger exploration of. E. B. Towne and T. R. Goethals .....	443
herniation of. A. Meyer.....	*387
tumor. A case of brain tumor or encephalitis accompanied with dyspituitarism and showing long continued pseudostupor. C. W. Burr..	105
tumor. A case of brain tumor with Wernicke's hemipupillary inaction sign. F. X. Dercum.....	102
tumor. Review of eight years' experience with brain tumors. E. Sachs	439
tumor. Roentgen rays of inflated ventricles disclosing a brain tumor. W. J. Mixter.....	242
with deep bruise and a brain with porencephalus. E. R. LeCount.....	469
Buckman, T. E.: IV. Studies in the relation of creatin metabolism to arthritis .....	559
Burns. Case of pyramidal sclerosis following electric burns. F. Kennedy	711
Burr, C. W.: A case of brain tumor or encephalitis accompanied with dyspituitarism and showing long continued pseudostupor.....	105
Cadwalader, W. B.: The condition of a patient in good health, but exhibiting automatic movements of the lower limbs, nineteen years after complete transverse section of the spinal cord by a gunshot wound	108
On the occurrence of bilateral sympathetic ophthalmoplegia in lethargic encephalitis .....	112
Paralysis of associated upward and downward movements of the eyeballs	237
Report of the condition of a case of complete division of the spinal cord by gunshot wound nineteen years after the injury.....	446
Significance of facial pain in determining the location of intracranial tumor .....	*182, 598
Cantonnet, A.: Ocular ataxia of tabetics.....	99
Caramanis, J.: Note on the intracellular canaliculi of nerve cells.....	97
Cardiac neuroses. F. D. White.....	346
Cardiorespiratory correlation in neuropathology, disorders of. J. Parhon	233
Cell counts. A simple method of distinguishing white from red cells in spinal fluid cell counts. S. R. Gifford.....	100
Cerebellar artery. An unusual case of occlusion of the posterior inferior cerebellar artery. N. W. Winkelman.....	102
artery, right posterior inferior, partial occlusion of. G. W. Hall.....	469
hemispheres. A clinical and anatomic study of a vascular lesion limited to the cerebellar hemispheres. W. F. Schaller.....	456
lesion. A case of cerebellar lesion. A. Gordon.....	107
Cerebellum, human, norms for some structural changes in, from birth to old age. R. S. Ellis.....	701
Report on the studies of Dr. R. S. Ellis touching the structural changes in the human cerebellum—from birth to old age—together with a quantitative determination of the Purkinje cells in normal and subnormal cerebella. H. H. Donaldson.....	460
Cerebral hemispheres. The relation of the cerebral hemispheres to arterial blood pressure and body temperature regulation. F. T. Rogers	126
porosis, a case of, with a histopathologic report. G. B. Hassin.....	*645
hemispheres, relation of, to arterial blood pressure and body temperature regulation. F. T. Rogers.....	*148
surgery. H. Cushing.....	464
Cerebrum. Contribution to the histopathology of "pseudomotor cerebri." P. Bailey .....	*401
pseudotumor cerebri, histopathologic findings in. P. Bailey.....	471
Cerebrospinal fluid. New methods of analysis of the cerebrospinal fluid..	336
New studies of the cerebrospinal fluid circulation. V. Stepleanu-Horbatsky .....	569
sclerosis. A case of diffuse cerebrospinal sclerosis. S. Uyematsu.....	565
Choreo-athetoid and choreopsychotic syndrome as clinical types or sequelae of epidemic encephalitis. LaS. Archambault.....	461, 484

# INDEX TO VOLUME 4

	PAGE
Choroid plexus. The embryology and the pathologic anatomy of the choroid plexus of the fourth ventricle. C. von Monakow.....	337
Cisterna magna, puncture of. J. B. Ayer.....	465, 529
Clark, C. K.: One thousand psychiatric cases from the Canadian army...	228
Claude, H.: Progressive subacute focal leuko-encephalitis.....	89
Cobb, S.: The course of recovery in spinal cord injuries.....	114
Electromyographic studies of muscles during hysterical contraction.....	*8
Compensation and "conduct disorders".....	552
laws. Wounds of the head and compensation laws. C. L. Dana.....	479
Compulsion neurosis in a child. P. R. Lehrman.....	512
"Conduct disorder" and compensation.....	552
Nervous signs and symptoms as related to certain causations of conduct disorder. W. Healy.....	585, *680
Corbett, J. F.: Peripheral nerve injuries.....	569
Cornil, L.: Nonfamilial progressive hypertrophic neuritis of adults.....	222
Pseudohypertrophy of the leg following a wound of the sciatic nerve. L. Cornil .....	101
Cornu ammonis. Absence of lobus olfactorius and sclerosis of cornu ammonis. F. Tanaka.....	*151
Corpus callosum. A case of tumor of the corpus callosum without left dyspraxia .....	335
comparative studies on the growth of. N. Suitsu.....	704
Cortex. Physiologic-anatomic investigations of the so-called arm region of the cortex. H. Meier-Mueller.....	437
Cotton, H. A.: The dementia praecox problem.....	588
Craigie, H.: On the relative vascularity of various parts of the central nervous system of the albino rat.....	446
Cranial nerves. Extracranial injuries of multiple cranial nerves. L. J. Pollock .....	517
occipital and anterior spinal nerves of the dogfish squalus acanthias. S. P. Hughes.....	450
Cranium. General absence of tendon reflexes in cases with wounds of the cranium involving the meninges. A. Souques.....	101
Tumor of the cranium in the parietal region. J. H. W. Rhein.....	233
Creasy, H. M.: Stuttering: Etiology and therapy.....	713
Crimes due to the war neuroses. L. Lattes.....	343
Crouzon: Boric potassium tartrate and boron medication in epilepsy....	342
Cushing, H.: Cerebral surgery.....	464
Rôle of deep alcohol injections in the treatment of trigeminal neuralgia	697
The special field of neurological surgery after another interval.....	*603
Cutaneous sensibility. A simple method for recording changes in cutaneous sensibility. L. Feinier.....	*81
Dana, C. L.: The somatic causes of psychoneuroses.....	96
Wounds of the head and compensation laws.....	479
Wounds of the head in civil life.....	571
Davis, T. K.: Case of lethargic encephalitis.....	710
Endocrinal defects and mental states.....	*185
Deafness. Nerve deafness due to congenital syphilis in three children. M. B. Kay.....	226
Decastro, F.: Some observations on the histogenesis of the neuroglia in the olfactory bulb.....	335
Delinquency. The psychoneurotic elements in juvenile delinquency. H. M. Adler .....	588
Dementia praecox. The dementia praecox problem. H. A. Cotton.....	588
Dercum, F. X.: A case of brain tumor with Wernicke's hemipupillary inaction sign .....	102
Devillaverde, J. M.: Postinfluenzal neuritis.....	335
Diabetes. The clinical involvement of the peripheral nerves in diabetes mellitus. W. M. Kraus.....	232
Diagnostic clinic. A diagnostic clinic for adolescents: Purpose and organization. P. Bailey.....	578
Dickinson, G.: Ocular notes on lethargic encephalitis, with two case reports	570
Dimitry, T. J.: Paraplegia after arsphenamin.....	221
